Education

Vishwakarma Institute of Information Technology, Pune - [B-TECH]	2023 - 2026
Information Technology CGPA: 8.25/10	Maharashtra, India
Sveri College of Engineering (Polytechnic), Pandharpur - [DIPLOMA]	2020 - 2023
Information Technology 91.00%	Maharashtra, India

Experiences

Project Interns Big Buddies Foundation, Pune - (3 MONTHS)	Sept 2024 - Nov 2024
- Developed an Ed-Tech web application for user profile creation, educational content access, and interactive games. - Built and maintained backend API routes, focusing on user authentication and data security. - Utilized Google Drive API to handle backend and frontend interactivity, enhancing user experience and simplifying the process.	
Trainee Engineer TechnoWings International IT Solutions, Solapur - (6 WEEKS)	July 2022 - August 2022
- Successfully Completed Industrial Training at TechnoWings, gaining practical insights into industry standards and enhancing technical proficiency. Worked closely with professionals under the supervision of industry experts to deepen knowledge in core areas, including software development and project management. - Acquired hands-on experience with cutting-edge technologies, enhancing technical proficiency for real-world applications.	

Projects

E-Commerce Platform MongoDB, Express.js, React.js, Node.js, Bootstrap	Dec 2024 - Jan 2025
Developed and deployed a fully functional e-commerce website tailored for farm products, providing farmers and buyers with a seamless online marketplace. Designed a user-friendly and responsive interface, ensuring smooth navigation and an enhanced shopping experience for customers. Integrated a secure PAYU payment gateway, enabling safe and hassle-free online transactions. Implemented real-time updates for product availability and pricing, ensuring accurate and up-to-date information for buyers.	
Personalized Learning MongoDB, Express.js, React.js, Node.js, Bootstrap	July 2024 - Sept 2024
Developed an AI-powered course generation system with the MERN stack, integrating GEMINI AI API to create personalized learning plans based on test results. Implemented seamless login and test-taking, automating course creation for tailored learning while optimizing performance and scalability. Ensured clean, maintainable, and scalable code, enabling future feature expansion and smooth performance across all devices.	
Mauli App for Government Officials, Pandharpur Android Studio, Java	March 2023 - June 2023
Team Lead for the development of an Android application for managing and monitoring police forces during large-scale events. Collaborated with government officials to create the app, focusing on the management of police forces during the Yatra events. Enhanced Operational Efficiency: Created a tailored app to manage and monitor suspicious activities, contributing to effective event management.	

Technical Skills

Programming Languages: Java, JavaScript, Python.
Technologies/Frameworks/Libraries: HTML, CSS, Bootstrap, Tailwind CSS, ReactJS, NodeJS, ExpressJS, Android Studio.
Other Skills: Problem Solving, Operating Systems, Data Structures and Algorithms, Database Management System.
Databases & Tools: SQL, MongoDB, Git, GitHub, Postman, AWS.

Achievements and Extra Curriculars

- Solved **200+** Coding Problems across platforms such as [GeeksforGeeks](#) and [Leetcode](#).
- Formed a Community of over **300** students - **Delivered Multiple Seminars** to 1st and 2nd year **Engineering, Polytechnic Students** on how they should **start** their journey in **Web Development** and **various other fields**.
